1. **Group members**

   Group members: Ziqi Liu 9364-4917
   Enyang Wang 6494-1124

2. **How to run**

   Steps: 1. Enter root folder (proj4_2).
   2.type commend as: mix phx.server

3. **What is working**

   The goal of our project is to implement a Twitter-like engine and use actor model to simulate several clients and a single-engine process.

   In 4.2 we add the web interface for all the functionalities we have in 4.1.

4. **Functionalities**

   All the functionalities in proj4.1:

   1. Register
   2. Login
   3. Delete
   4. logout (new add)
   5. send_tweet
   6. subscribe
   7. re_tweet
   8. query
